

Villa Chiara Dialysis Centre

The [Villa Chiara Dialysis Centre](#) in Casalecchio di Reno (Bologna) is a limited-care facility for the treatment of patients with **chronic renal failure**.

Equipped with cutting-edge technology, the Centre can accommodate up to 12 patients, including chronic and temporary patients. It is a point of reference for residents as well as for those who need dialysis during temporary stays, such as vacations or business trips.

Treatments and therapeutic management

This is a **limited care centre** (LCC) that offers only hemodialysis treatments, performed with modern equipment and biocompatible membranes in HD, HDF, and hemodiafiltration modes.

Peritoneal dialysis is managed by the nephrology team of the Sant'Orsola Malpighi University Hospital, at the Sant'Orsola-Malpighi General Hospital, through dedicated agreements between the Department and the patient.

Services offered

To complete the therapeutic programme, the centre also offers:

- regular clinical monitoring;
- qualified nursing care;
- detailed monitoring of vital signs;
- the possibility of performing dedicated diagnostic and instrumental tests related to dialysis.

Access to the Centre

Access is granted to privately paying patients, to patients covered by the National Health Service, and to those who require dialysis during vacations or short stays.

A preliminary medical assessment by specialised personnel is required to verify clinical suitability and the necessary documentation.
